# DADS – DIH Agrifood Data Space

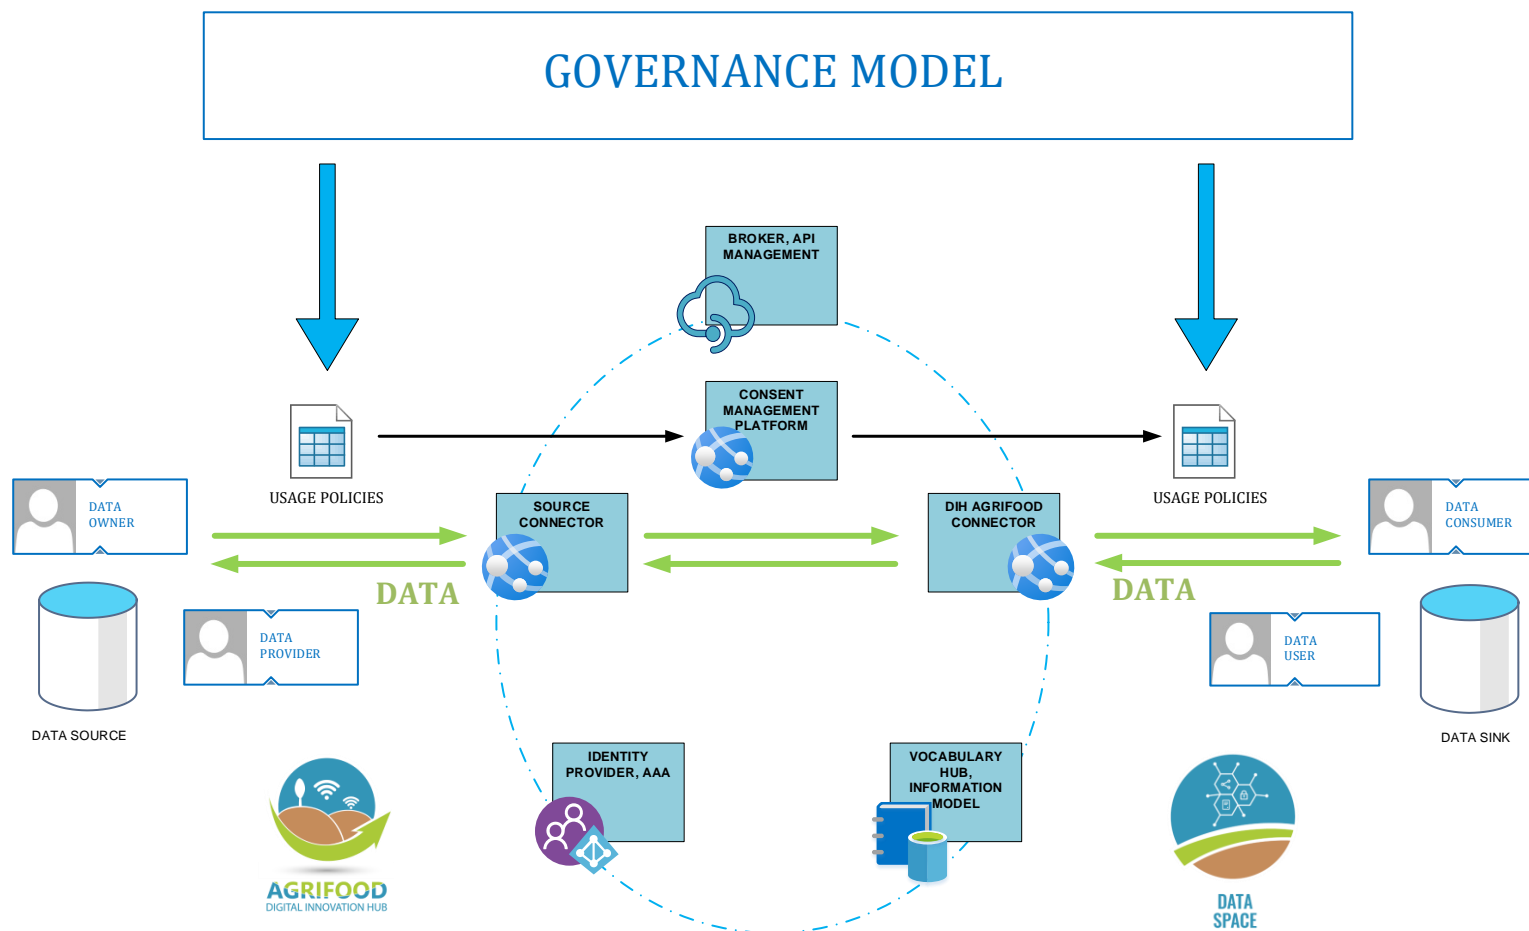

DATA  
SPACE

**Podatkovni prostor DIH AGRIFOOD (DADS)** je federalno organizirana platforma za izmenjavo podatkov, kjer se delijo podatki iz agroživilskega sektorja na podlagi vnaprej **določenih politik in pravil, ki jih določa model upravljanja podatkov.**

Model upravljanja podatkov temelji na etičnih načelih in smernicah Evropske komisije. Ta načela zagotavljajo **suverenost podatkov lastnikov podatkov ter preglednost zbiranja in deljenja podatkov med vsemi deležniki v podatkovnem prostoru.**

**Najpomembnejša korist:**  
**Lastniki podatkov so zaščiteni!**

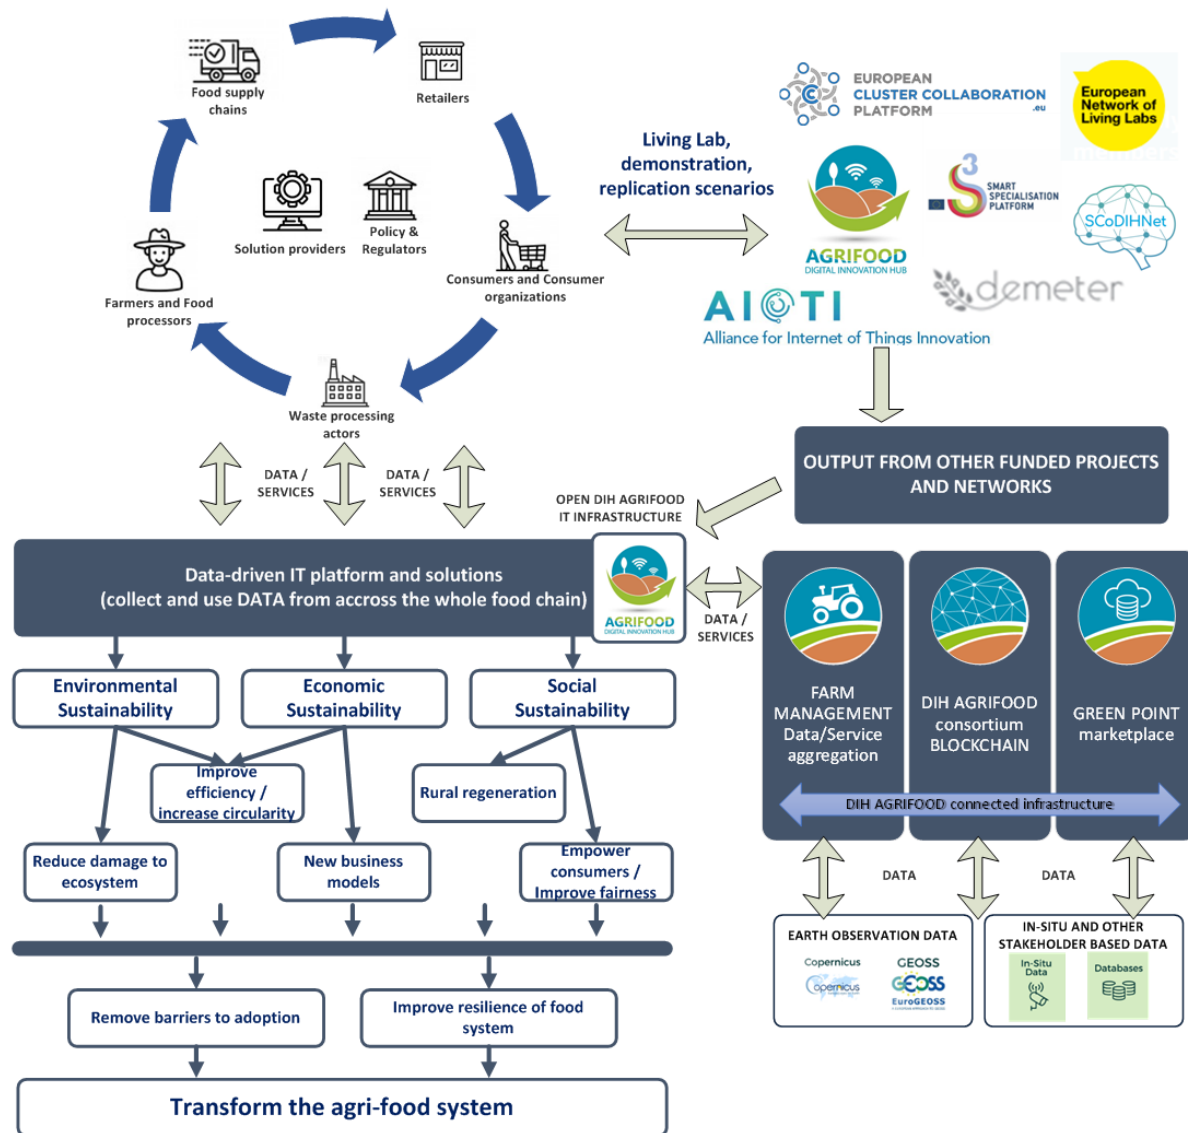

## Dolgoročni cilj

- **Združiti akterje** iz vseh agroživilskih sistemov v **participativnem večakterskem pristopu (pMAA)**

### S podpora:

- **Podatkovno usmerjeno informacijsko platformo** za zbiranje in uporabo podatkov iz celotne prehranjevalne verige za zagotavljanje koristi družbi in vodenje do bolj **trajnostnega, odpornega in preglednega prehranskega sistema** z opolnomočenimi deležniki, ki so sposobni sprejemati pametnejše, bolj trajnostne, bolj zdrave in osebne izbire hrane in prehrane, ob upoštevanju podatkov o vplivu na okolje, izvoru, hranilni vrednosti, varnosti in neoporečnosti.
- **Podatkovni prostor DIH AGRIFOOD** zagotavlja varen, suveren sistem izmenjave podatkov o agroživilstvu, v katerem lahko vsi udeleženci spoznajo polno vrednost svojih podatkov.

# Kaj so kaskadni razpisi?

Kaskadno financiranje (finančna podpora tretjim osebam) je mehanizem Evropske komisije za razdeljevanje javnih sredstev za pomoč upravičencem, kot so zagonska podjetja, podjetja v povečanem obsegu in MSP pri uvajanju ali razvoju digitalnih inovacij.

Namen te metode financiranja je poenostaviti administrativne postopke in ustvariti enostavno, MSP-prijazno prijavno shemo, tako da lahko nekateri projekti, ki jih financira EU, objavijo odprte razpise za nadaljnje financiranje (razpisi znotraj tekočih projektov).
